BLOCK SERIES

Designed to withstand hazardous environments, the Block Series excels with a luminous efficacy of 150 lumens per watt. It is certified for use in hazardous locations requiring explosion-proof fixtures where flammable gases, vapors and combustible dusts are present. Applications include oil and gas rigs, petrochemical plants, and other hazardous corrosive facilities.

With 10kV built-in surge protection, the Block Series enhances safety and working conditions. Its dimmable driver helps reduce light pollution, enhance the working environment, and save on energy costs. Its self-contained LED and driver compartment, coupled with external cooling fins, ensures reliable heat dissipation even in extreme temperatures up to 140°F (60°C) while its robust design and quality enable operation under temperatures as low as -40°F (-40°C). The remarkable 121,000-hour LED fixture life at 140°F (60°C) guarantees long-term operation of the facility. A rugged copper-free aluminum body and frame provide superior corrosion resistance for long-lasting durability.

With three optic options ranging from spot to flood, the Block Series offers flexibility for a variety of applications. Red Sky Lighting backs the Block Series with an industry-leading 10-year warranty and factory replacement. Choose the Block Series for exceptional performance, advanced safety, and unmatched durability in hazardous industrial environments.

A DIRECT RETROFIT FROM HID TO LED

The BLK series LED is easy to retrofit in the same configuration as your existing HID luminaires. For example, a 150-watt Block (BLK2-150) delivers virtually the same illumination as its equivalent 450 watt Metal Halide luminaire while providing 80% reduction in energy costs and up to 148,000 hours of continuous operation.
